ABOUT ME

Detail-oriented **Full Stack Java Developer (Fresher)** with hands-on experience in designing and developing secure, scalable web applications using **Java 17, Spring Boot 3, Spring Security, JWT, React.js, MySQL, HTML, CSS, and JavaScript**. Experienced in building **RESTful APIs**, implementing role-based authentication, and deploying containerized applications using **Docker** on **AWS EC2**. Passionate about writing clean code, solving real-world problems, and continuously learning modern full-stack technologies.

SKILLS

Frontend	: HTML5	CSS, Tailwind CSS 4	JavaScript (ES6)	React.js
Backend	: Java 17	Spring Boot 3	JWT Authentication	REST APIs
DevOps & Deployment	: AWS EC2	Docker	Nginx	SSL (Encrypt)
Tools	: Git, GitHub	VS Code	Postman	Chrome DevTools
Database	: MySQL	CRUD Operations	Database Schema Design	Data Validation

PROJECTS

Dec 2025 – Jan 2026	ElectroMart – Electricals & Hardware Shop Web App React-based web application developed for an electrical and hardware shop with role-based authentication (User/Admin). Implemented user registration, login functionality, and separate admin panel for managing users and shop data. Built responsive UI using React Hooks, JavaScript (ES6+), HTML5, and CSS3 with reusable component-based architecture.
Oct 2024 – Nov 2024	BookMyEvent – Event Booking System Full-stack web application built with Java 17 and Spring Boot 3 for secure event registration and booking. Implemented JWT authentication and role-based access using Spring Security. Developed REST APIs with MySQL integration and deployed the Dockerized application on AWS EC2 with Nginx and SSL.
Aug 2024 – Sep 2024	TrackMate – Attendance Management System Web-based attendance system developed using Java and Spring Boot to manage employees and track attendance. Implemented authentication and role-based access control. Designed REST APIs with MySQL integration and built the frontend using HTML, CSS, and JavaScript.

EDUCATION

2021 – 2023 Sri Balaji Polytechnic College	Diploma in Computer Engineering Completed diploma with a strong foundation in programming, database management, and computer fundamentals including Java, SQL, and web technologies.
2019 – 2021 MIET, Chennai	ITI in Mechanical Motor Vehicle Completed vocational training in mechanical systems, diagnostics, and technical problem-solving, developing strong analytical and troubleshooting skills.

COURSES & CERTIFICATIONS

Full Stack Java Developer Besant Technologies, Chennai	Hands-on training in building secure full-stack web applications using Java, Spring Boot, MySQL, and modern frontend technologies with real-time project development.
